# Classy photo booths

Bring Fun and Spark to your event by hiring a Photo Booth!

# Classy photo booths

Photo booths are an instant way to add fun and spark to your event. From classy “red carpet” to “funky and fun”, we have every photo station setup for your needs.

All our packages include an on-site photographer for personalized attention

## How Does it Work?

### #1 Event Details

Once you book us for your event, we will have a quick chat to decide the elements that better suit your party. You can choose the style and theme for props, backdrop and prints

### #2 Event Day

A photo station will be set up the day of the event at the chosen location. A typical setup includes camera, flashes, printer, funky backdrop and a table with props  
Guests will drop by the photo station, choose a prop, strike a pose and get as many photos taken as desired  
Photos can be sent by email or printed at the photo station

### #3 After the Event

At the end of the event, the client will receive an online gallery with all photos taken

We customized prints with your event name, and company logo.

Instant prints are available with the complete package
